

CLASSIC CLIMBS AROUND BAŠKA

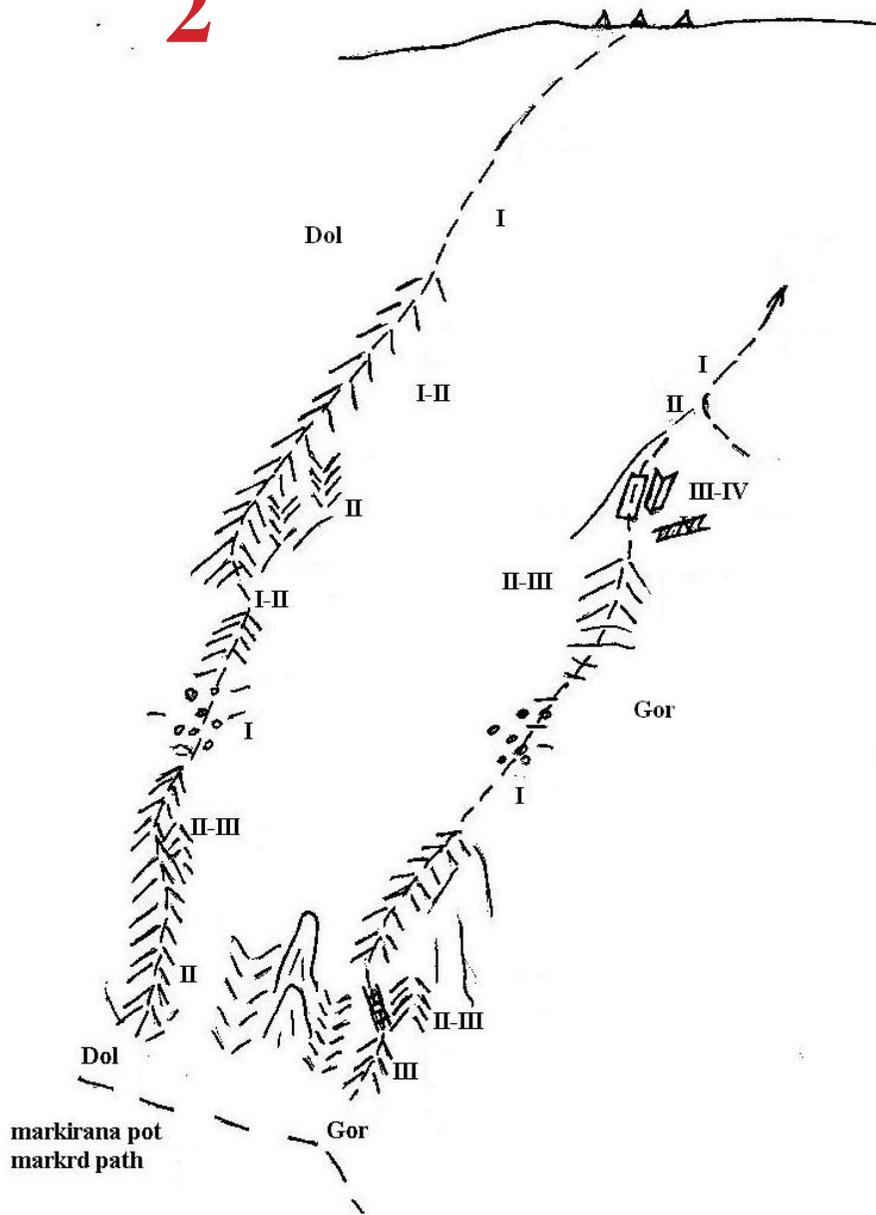

Climbed and collected by Mr. Tone Golnar.

All routes in this topo were climbed by the author, but it is possible that many of them have been climbed before, though we don't have any notes on that. To climb them, you may need some pegs, friends and/or nuts.

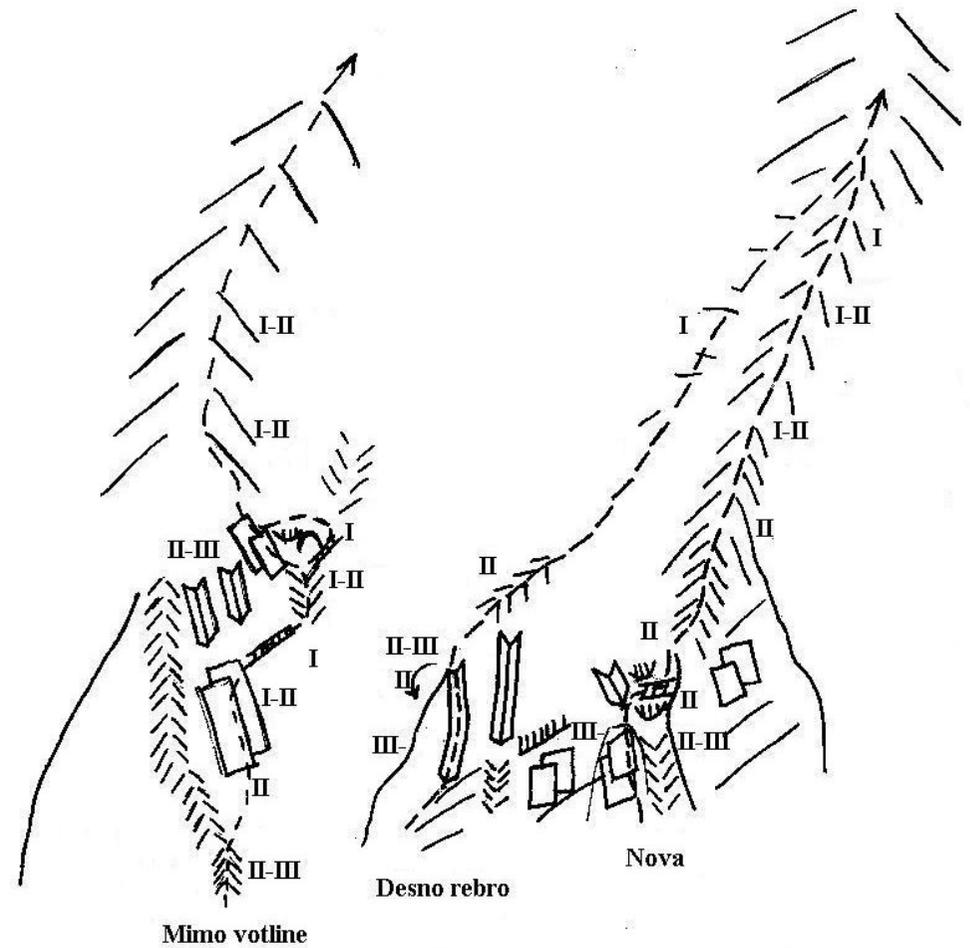

Warning!!! These are classic climbing routes and are not equipped at all! Although routes are of easier grades, special knowledge and experiences are needed in order to climb them. This has nothing to do with sport climbing! We do not recommend that you use this topo to climb these routes, unless you are experienced alpine climber and know what you are doing! You always climb at your own risk!
