GB. FRANKOPAN CASTLE OF GRADEC/ The forest between Risika and Garica contains a Frankopan castle from the 12th century - many believe Gradec to be the original home and the first estate of the Krk dukes. HR. GUMNO (GUVNO)/ To je prvotno bila suhozidna građevina, za čiju se gradnju kasnije upotrebljavalo i vezivo. Ta je građevina ustvari namijenjena za vršenje žita. Žitarice bi se rasprostirale po podlozi, a zatim bi stoka gazila po žitu i tada bi se odvajala zrna žita od plijeve.

GB. GUMNO (GUVO)/ Originally, this was a dry stone wall building, but later they used binding agents. The building is actually intended for wheat threshing. Cereals would be spread across the surface, and then the cattle would stomp on the wheat, followed by separation of wheat seeds from the weed.
